O R D E R:

The background of the Clean Andhra Pradesh in **Urban Areas** With a Mission of making Bin-free, Litter-free and Garbage-free cities in Andhra Pradesh the Hon'ble Chief Minister of Andhra Pradesh has envisioned a programme of Clean Andhra Pradesh – CLAP. The key objectives of CLAP include, Visual Cleanliness of the Cities, 100 % Segregation of Waste at Source with Community Participation, Encouraging Home Composting and Onsite waste treatment, 100 % Door-to- Door Collection and 100 % Scientific Treatment of the Waste Generated. The Implementation strategy includes preparation of a Comprehensive Sanitation planning comprising of city level sanitation plans, state sanitation concept and the state sanitation strategy; Behavioral change strategy and Information, Education and Communication (IEC); Enabling environment for participation of private sector; capacity building and identification of special focus groups. A State Implementing Committee headed by the Special Chief Secretary MA&UD is responsible for overall monitoring and supervision of CLAP at the State level. CLAP Program will be headed by the Commissioner and Director of Municipal Administration and Managing Director, Swachha Andhra Corporation. At the ULB level, major stakeholders engaged in implementation of CLAP include ULB Staff, Ward Secretaries, SHG Women, Volunteers, Resident Welfare Associations (RWA's), Non-Government Organisations (NGOs) and Civil Society Organisations (CSOs).

2. The background of the Clean Andhra Pradesh in **Rural Areas**, Government has decided to scale up the sanitation program in all the villages by launching "CLAP (Clean Andhra Pradesh) captioned with "JAGANANNA SWACHHA SANKALPAM" a 100 days sanitation advocacy campaign to achieve the Litter Free – Garbage Free - Visual Cleanliness in all the Villages. Implementation strategy includes preparation of a Comprehensive Sanitation planning comprising of village level sanitation plans, state sanitation concept and the state sanitation strategy; Behavioral change strategy and Information, Education and Communication (IEC). A State Implementing Committee headed by the Principal Secretary PR & RD is responsible for overall monitoring and

Contd...2..

supervision of CLAP at the State level. CLAP Program will be headed by the Commissioner Panchayatraj and Rural Development and Managing Director, Swachha Andhra Corporation. At the village level, major stakeholders engaged in implementation of CLAP include Village Secretaries, volunteers, Self Help Group (SHGs),Green Ambassadors and Non-Government Organisations (NGOs) .

3. The following components of the CLAP Programme in Urban & Rural Areas in the State :

Components of the CLAP Programme (Urban):

a. ULBs are procuring & supplying 1.20 Crore Household bins in 124 ULBs from 15th FC grants / CSR funds with an estimated cost of Rs. 72 Crore to around 40 Lakh HHs (3 Bins (Green, Blue and Red) to each House).

b. Deployment of 3097 No's of Diesel / Petrol / CNG hydraulic garbage tippers in Grade -1 & above category ULBs and 1771 No's of E-Auto in Grade-2, Grade-3 and Nagara panchayats for primary collection and transportation, replacing the current methods collection and transportation through push carts. The hydraulic garbage tippers will be used for door-to door collection and transportation of waste to Garbage Transfer Stations. Usage of hydraulic garbage tippers is expected to improve the collection and transportation efficiency and also for creating visual cleanliness, by preventing littering in residential and public areas.

c. The hydraulic garbage tippers are planned to be deployed on outsourced basis wherein the service provider will be responsible for deploying the vehicle along with operations and maintenance responsibilities.

d. Construction of systematically designed Garbage Transfer Stations for a cluster of 8 to 10 Wards, as mid-way transfer points at the primary level. A total of 219 GTS at a cost of Rs.220 Crores are required in 124 ULBs and 15th FC funds will be utilized for these. Procurement of 6000 compactor bins with a value of Rs. 19.65 Crs with 15th FC funds. These bins are placed at GTS for secondary storage of waste.

e. The waste from Garbage Transfer Station is transported to Waste Processing Plants for treatment in a comprehensive manner. Integrated Solid Waste Management plants (ISWM) are planned in PPP model in 72 ULBs. ISWM plants will have facilities to treat Wet & Dry waste through Bio-methanation plant / compost plant and MRF centres at one place.

Contd...3..

f. Remediation of 67 lakh MTs of Legacy waste in above 1 lakh population ULBs

g. Construction of 65 FSTPs in below 1 lakh population cities.

h. The program has a Monitoring and Evaluation mechanism through Command Control Centre of MA&UD Department, Swachh Andhra Corporation and Office of Commissioner and Director of Municipal Administration closely coordinating and guiding the Urban Local Bodies and District Collectors for effective implementation of the program. Monitoring of the program execution will be based on measurable Key Performance Indicators through IoT based systems.

Components of the CLAP programme (Rural):

The components of the program are Collection & Transportation; Treatment & Disposal; Revenue Generation; Visual Cleanliness

a. In addition to the existing(10,645), 4171 Solid Wealth processing centres are going to be constructed, will bring all the Sheds to functional by providing necessary infrastructure machinery & Sanitation workforce.

b. Tri-cycles – 14,000 Nos are going to be placed in GPs.

c. Effective implementation of garbage collection and transportation Autos-1000 Nos are going to be provided to 10,000 above population villages & Villages near by urban local bodies.

d. Safe disposal of sanitary waste Incinerators-6417 will be going to be placed in GPs.

e. To maintain community toilets, clean on regular basis, High Pressure Toilet Cleaner – 10,731 Nos will be placed in GPs. For reduction of mosquitoes breeding and to overcome from the seasonal diseases Portable Thermal Fogging Machine – 10,628.

f. Integrated approach will be followed in both urban & rural areas for effective implementation of the program.

g. 13 Fecal Sludge Treatment will be taken up in 13 districts @ One per district in Phase I.

h. Organic waste into vermi compost processing is done in 10645 GPs; Non-recyclables sent to cement factories and nearby waste to energy plants as Refused Derived Fuel (RDF); Dry Waste & Non-recyclables through nearby urban located treatment plants.

Contd...4..

i. Establishing forward linkages with the concern departments.

j. The program has a Monitoring and Evaluation mechanism through Command Control Centre of PR&RD Department, Swachha Andhra Corporation and Office of Commissioner Panchayatraj and Rural Development closely coordinating and guiding the District Collectors and other concerned district officers for effective implementation of the program. Monitoring of the program execution will be based on measurable Key Performance Indicators through IoT based systems.

4. The Government after careful examination hereby permission to launch the program of **"(CLAP) CLEAN ANDHRA PRADESH program** captioned "Jagananna Swachha Sankalpam" in both Urban & Rural Areas of Andhra Pradesh to create safe and better sanitation facilities and services in Urban & Rural areas by implementing best sanitation practices, innovative approaches towards making better resilient community and healthy society. Outcome of the program will be improvement of safe sanitation facilities and services includes Hygienic Surroundings, ensure usage Individual, Community & Public Toilets, ensure segregation of waste, Improvement of Solid Waste Management facilities and services, Improvement of Liquid Waste Management facilities and services, Reduction of seasonal disease burden and improvement of health and wellbeing and to achieve Clean Andhra Pradesh.

5. The Managing Director, SAC, Vijayawada, Commissioner & Director of Municipal Administration, A.P. and the Commissioner, PR& RD Department, A.P., shall take necessary action in the matter accordingly.
